

ABOUT US

Company Profile

SHENZHEN CUMARK SCI.& TECH CO., LTD. was founded on March 19, 2001. It has long been focusing on the research and development, production and sales of power electronic transmission and automation products. It is a national high-tech enterprise, a specialized "little giant" enterprise and a special frequency conversion engineering technology research and development center of Guangdong Province. The company's main products are: high-voltage inverters, medium and low-voltage inverters, explosion-proof inverters and industry-customized special inverters.

23
YEARS

Experience Focus on
Electronic Transmission and
Automation Products

Highly educated
R&D team

Widely
Applicable Fields

Global Service
Network

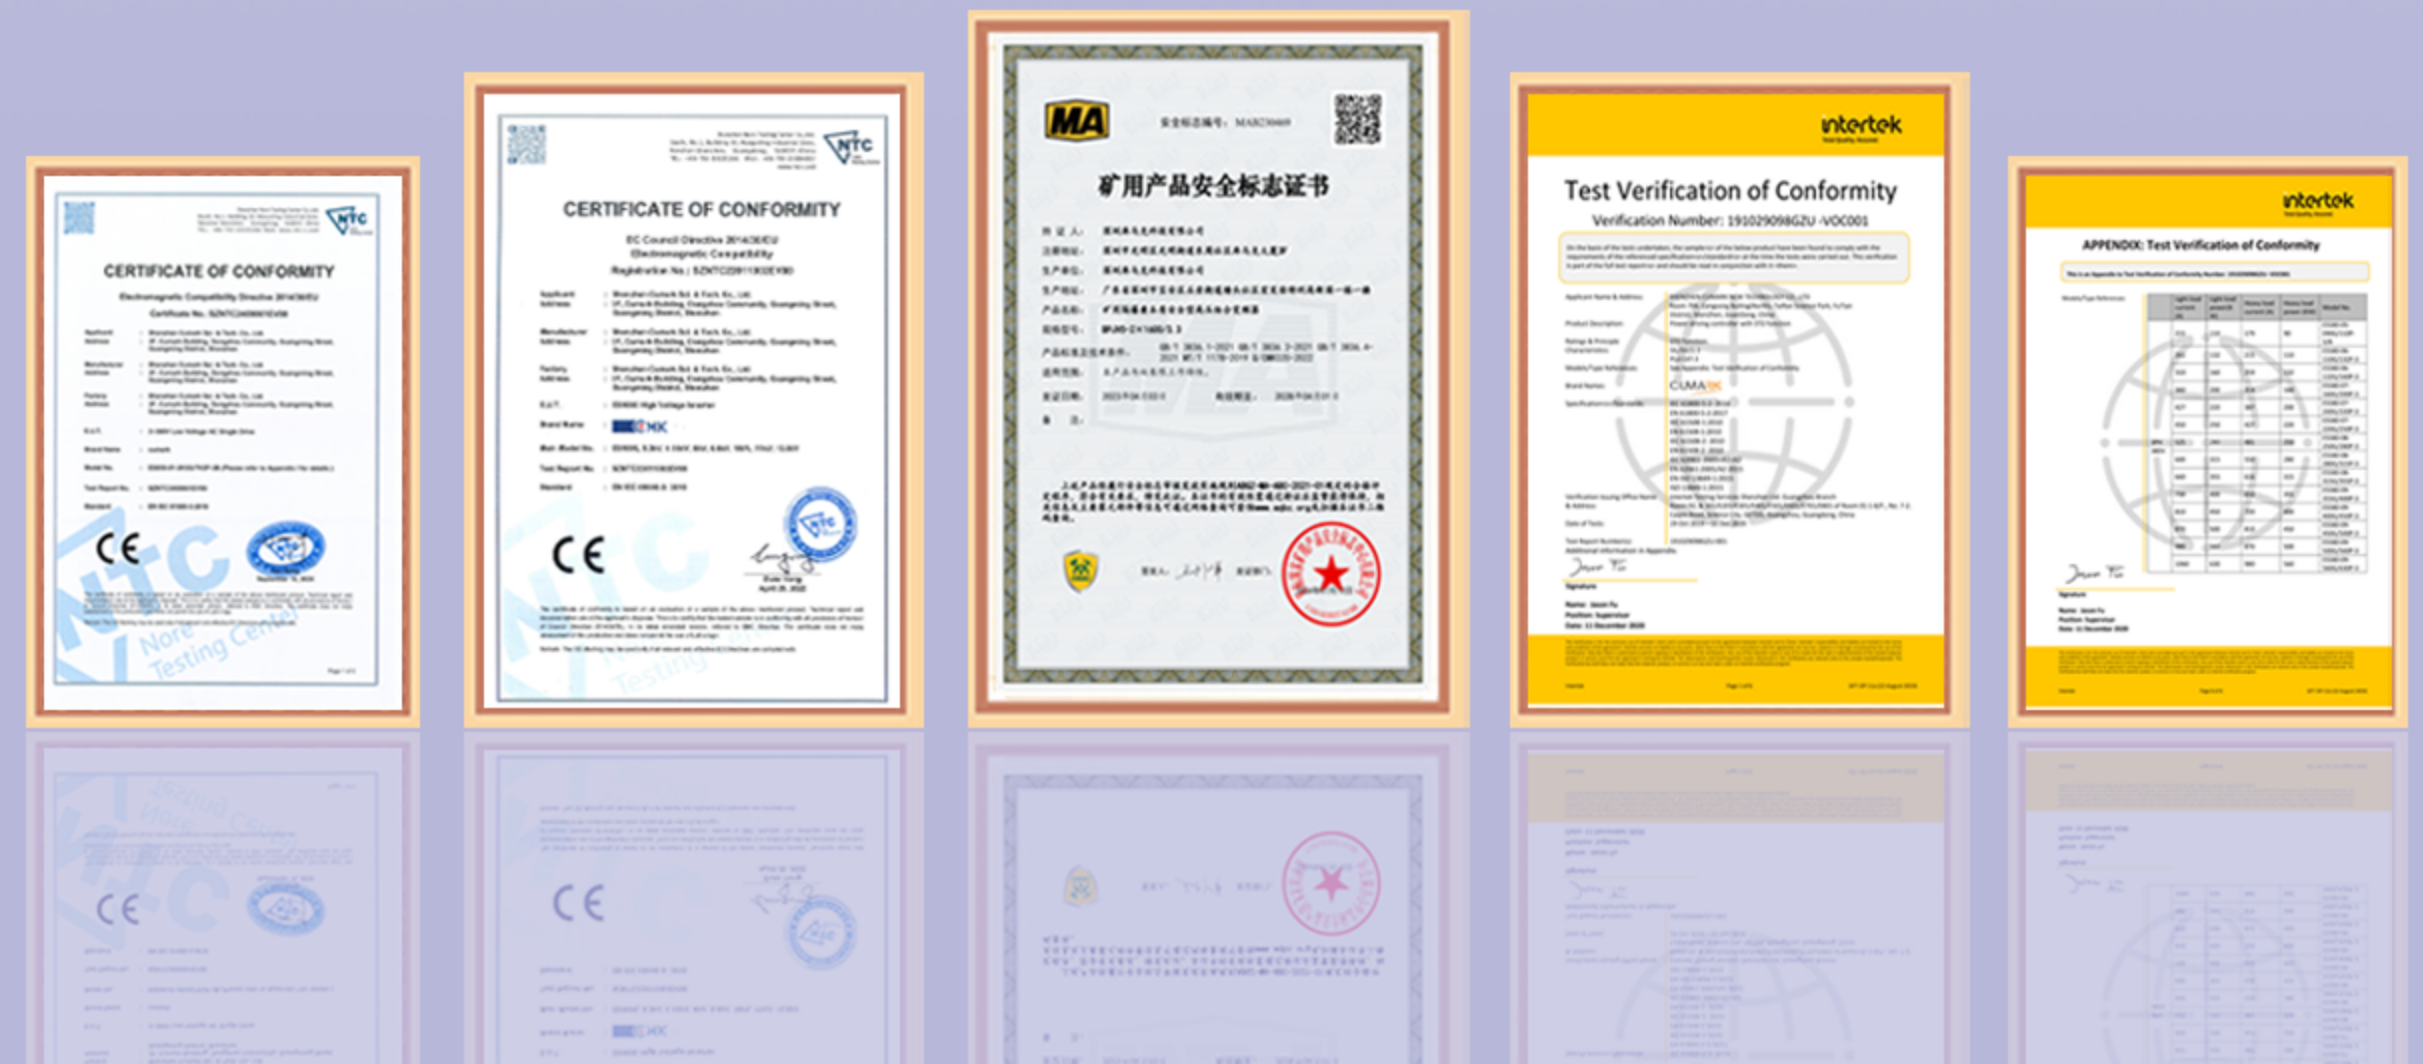

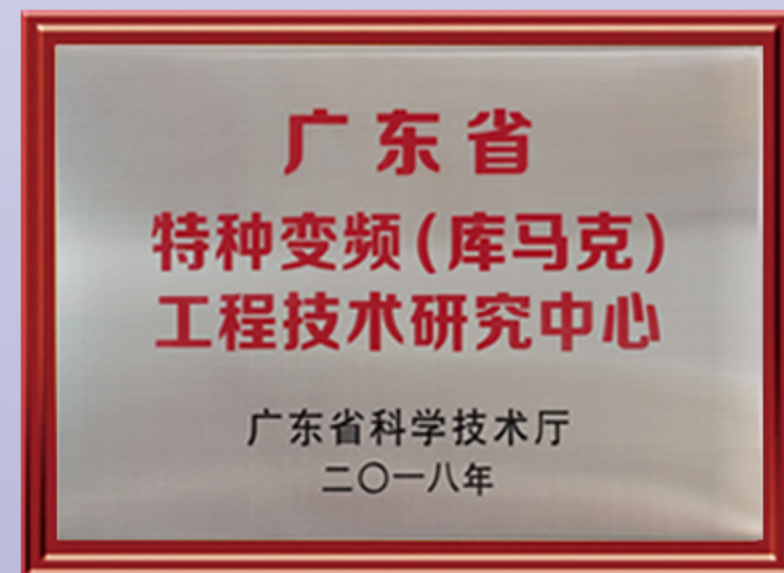

ONE-STOP
Service

We provide users with efficiency,
reliable, safty and smart motion
control of VFD products

Our Certificates

Quality assurance

Main VFD Products

Professional manufacturer

SVC / FVC High Performance Vector Control

ES580/580L

High performance
variable frequency drive

220V 3PH 0.4-75KW
380V 3PH 0.75-800KW
500V 3PH 15-900KW
690V 3PH 15-1400KW

ES850/850L

High performance industrial
variable frequency drive

220V 3PH 0.4-75KW
380V 3PH 0.75-800KW
500V 3PH 15-900KW
690V 3PH 15-1400KW

ES850S

High Power Servo Drive

220V 3PH 0.4-15KW
380V 3PH 0.75-55KW

ES350/350L

High performance micro
variable frequency drive

220V 1PH 0.4-2.2KW
380V 3PH 0.75-4KW

ES355/355L

Micro variable frequency drive

220V 1PH 0.4-2.2KW
220V 3PH 0.4-2.2KW
380V 3PH 0.75-4KW

ES560/560L

General purpose industrial
variable frequency drive

380V 3PH 5.5-630KW

ES610

General purpose industrial
variable frequency drive

220V 3PH 0.4-18.5KW
380V 3PH 0.75-37KW

ES710/710S

High performance industry
Variable frequency (servo) drive

220V 3PH 0.4-18.5KW
380V 3PH 0.75-37KW

ES580T

VFD Without Fan

380V 3PH 7.5-37KW

Main VFD Products

Professional manufacturer

SVC / FVC High Performance Vector Control

- ✓ 250KW-650000KW (air-cooled/water-cooled)
2.3/3.3/4.16/6/6.6/10kv asynchronous,
synchronous/permanent magnet
synchronous high-voltage VFD/synchronous
soft starter

- ✓ 710-6600kW (water-cooled) 3.3kv/6kv/10kv
intelligent explosion-proof high-voltage
special VFD

- ✓ ES580L/BP580L
1140V 3PH 250-710KW

- ✓ Permanent Magnet Assisted
Synchronous Reluctance motor drive

- ✓ Flywheel energy storage
frequency converter

- ✓ Automotive testing platform

- ✓ Intelligent variable
frequency motor

IES980 series energy storage converter
(PCS series grid side converter)
DC side 550~1000V 250-2000KW

- ✓ Four quadrant frequency converter
220V 3PH 0.4-75KW
380V 3PH 0.75-800KW

CUMARK VFD Typical in Industry Application

Excellent & smart

Heavy industry

Steel industry

Cement industry

Chemical industry

Petroleum

Petrochemical

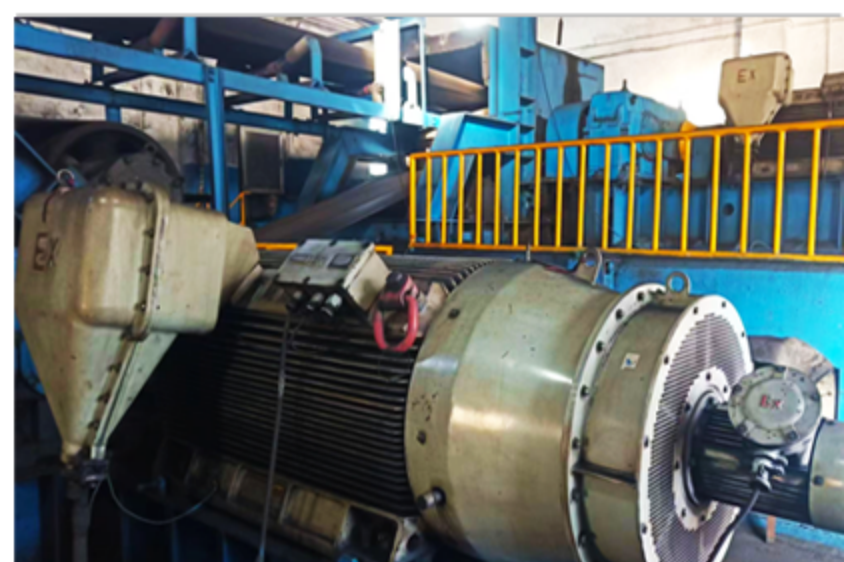

Non-ferrous metal

LNG

Mines

Belt conveyor

New energy industry

Photovoltaic water pump

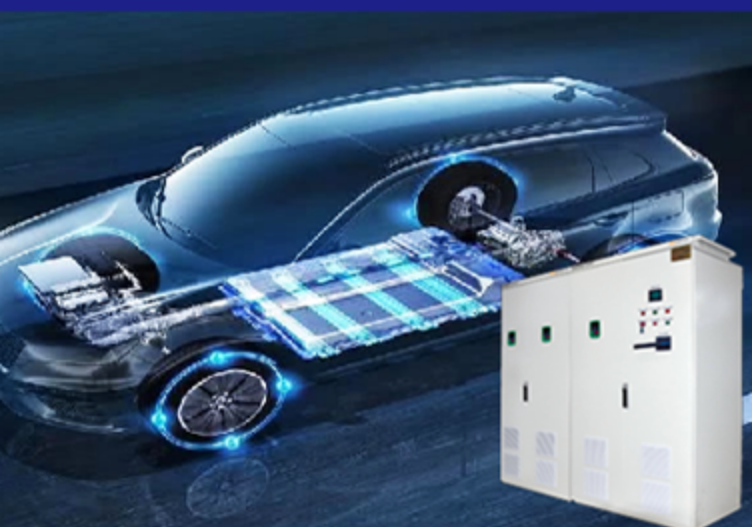

Vehicle management system

Mining truck

CUMARK VFD Typical in Industry Application

Excellent & smart

Automotive testing platform

Solar thermal power generation

Flywheel energy storage

Gravity energy storage

Crane vessel

Hydrogen power generation

Light industry

Spinning and weaving

Packaging machinery

CNC spindle control

Special application industry

Coal mine

Elevator industry

Crane hoist control

CUMARK VFD Typical in Industry Application

Excellent & smart

Infrastructure and transportation

Vehicle air conditioning system

Vehicle management system

Track traction drive

HVAC

Data center

Water pump/water treatment

▼ Other excellent industries ▼

Slitting machine

Printing and packaging

Blower & Compressor

High altitude application on plateau

Rubber plastic machinery

Water supply and sewage treatment

Channel partners

Comprehensive services

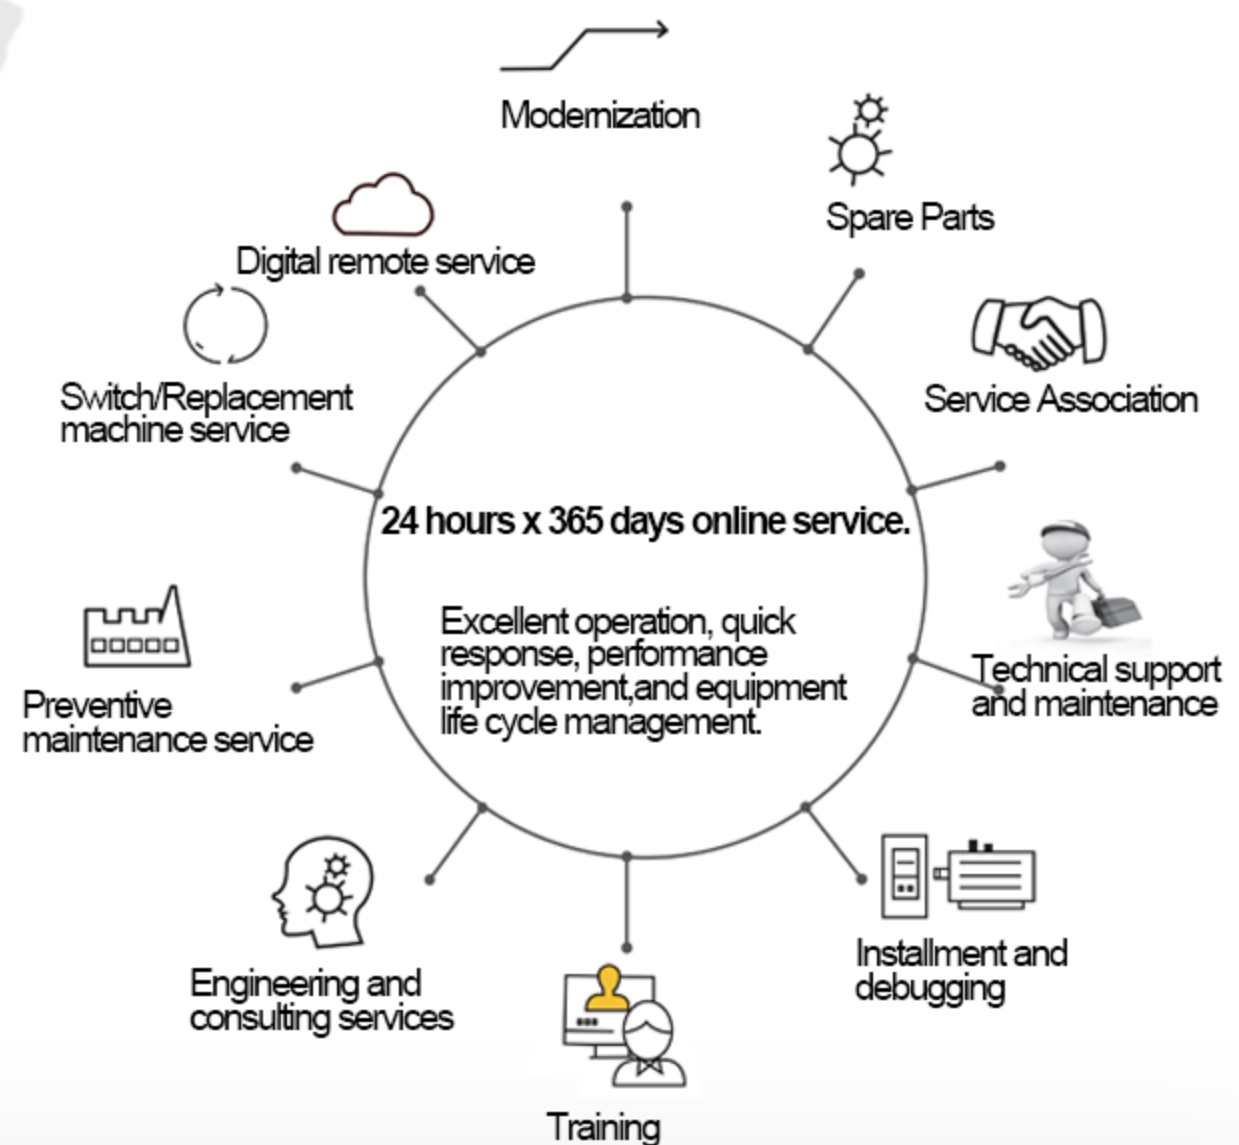

✓ Global partners

We not only have a strong sales and service team in China, but also provide product and solution support and services to customers around the world.

✓ Cumark full range of services

Your success is our goal.
Cumark will tailor a full lifecycle management solution for you to escort your business growth.
